RASEM is one of the leading tool manufacturers in the die casting industry, specializes in aluminum injection form and trim tools. It was founded by Zeynel Gün in 1993 in Istanbul.

Combines new technology, engineering knowledge and designing talents focusing on "customer satisfaction". Concerning only with the production of cold chamber HPDC tools since 2001 is what underlies Rasem's success in the molding industry.

Today, it is capable of producing tools; up to 2000 mm in size and up to 25 tons in weight in 1,300 m² closed area.

Comprehends the necessity of investment in people, process and technology, and works with highly qualified man-power and accumulated know-how and always pays close attention to detail.

Rasem manufactures high quality tools for mass production to Tier 1 companies such as; Bosch, B/S/H/, SEG, Valeo, Magna CTS, TRW, Mahle, Stackpole, Trelleborg, and partnering up with die casting foundries that carry on a business on %85 automotive and rest to households and electrical-electronics industries.

Everything started with shaping...

RASEM is one of the leading tool manufacturers in the die casting industry, specializes in aluminum injection FORM and TRIM tools.

Solution Partners

Part optimization before tooling
Design support to the customer
Well-educated design team
Professional project management

5-Axis technology,
Highly qualified spotting talent,
Casting the tool in house,
Dimensional report of casted parts

40 years of sector experience

We are a big family with our well-trained colleagues...
